VEX GO Classroom Bundles

Classroom sets of VEX GO kits with storage, fields and supporting accessories. Choose the bundle size for your class.

PART NUMBER	DESCRIPTION / VARIANT	EUR
269-7780	GO Education Bundle	**€2,595.74**
269-7781	GO Small Education Bundle	**€1,297.99**
269-7782	GO Large Education Bundle	**€3,893.49**

Family image • see listed options

VEX GO Education Kits

A hands-on STEM construction kit with electronics and organised storage for building and coding classroom robots.

PART NUMBER	DESCRIPTION / VARIANT	EUR
269-6705	GO Education Kit with Storage Boxes	**€214.99**

Family image • see listed options

VEX GO Competition Field Kit

Bring the excitement of robotics competitions to your classroom and community with VEX GO. The GO Competition Kit includes everything needed to build one of four themed games for use with VEX GO Competition Kits.

Product image

PART NUMBER	DESCRIPTION / VARIANT	EUR
269-8115	GO Competition Kit	**€309.99**

Charging Accessories

Spare USB Cables (A-C) and Charging Hubs for VEX 123, GO, IQ (2nd Gen) and EXP Batteries.

Family image • see listed options

PART NUMBER	DESCRIPTION / VARIANT	EUR
269-6961	USB Cable (A-C)	**€6.99**
269-7491	USB Charger (1-Port, 15W, Global)	**€12.49**

GO Battery

The Battery is essential for any VEX GO build that includes electronics. The Battery provides power to VEX GO electronic components and connects to the orange port on the Brain or Switch.

Product image

PART NUMBER	DESCRIPTION / VARIANT	EUR
269-6686	GO Battery	**€38.99**

GO Brain

The GO Brain is essential for any VEX GO build that is run by a VEXcode GO project. The Brain runs user projects and controls the devices connected to the Brain.

Product image

PART NUMBER	DESCRIPTION / VARIANT	EUR
269-6685	Smart Brain	**€33.49**

GO Electromagnet

The GO Electromagnet is a specific type of magnet where the magnetic field is produced by an electric current. The Electromagnet can pick up and put down the Disks which contain metal cores.

Product image

PART NUMBER	DESCRIPTION / VARIANT	EUR
269-6702	GO Electromagnet	**€16.99**

GO Eye Sensor

The GO Eye Sensor detects if there is an object present and the color of the object. Color detection is red or green or blue. It will also register the brightness of the ambient light.

Product image

PART NUMBER	DESCRIPTION / VARIANT	EUR
269-6695	GO Optical Sensor	**€16.99**

GO LED Bumper Switch

The GO LED Bumper is both a light and a bumper switch. As a sensor, the LED Bumper can be used to display colored light: red, green, or off. As a bumper switch, the LED Bumper reports if it is pressed or released.

Product image

PART NUMBER	DESCRIPTION / VARIANT	EUR
269-6696	GO LED Bumper Switch	**€10.99**

GO Smart Motor

The GO Motor changes electrical energy into rotational movement that can be used in a GO build. The Motor can be powered in two ways:

Product image

PART NUMBER	DESCRIPTION / VARIANT	EUR
269-6690	GO Smart Motor	**€16.99**

GO Switch

The GO Switch can be connected to a GO battery and a GO motor or LED Bumper to control them manually.

Product image

PART NUMBER	DESCRIPTION / VARIANT	EUR
269-6687	GO Switch	**€9.99**

VEX One Stick Controller

Put direct, hands-on robot control in students' hands with the VEX One Stick Controller. Featuring one joystick and five buttons, this rechargeable handheld controller works with both VEX AIM and VEX GO.

Product image

PART NUMBER	DESCRIPTION / VARIANT	EUR
269-8230	One Stick Controller	**€25.99**

VEX GO Parts Packs

Replacement construction parts for VEX GO kits. Choose the required parts-pack option below.

VEX IQ Education Kit (2nd gen)

The IQ Education Kit makes STEM manageable for teachers and fun for students! This kit is designed to build a single robot.

PART NUMBER	DESCRIPTION / VARIANT	EUR
228-8899	IQ Education Kit (2nd Generation)	**€463.49**

Family image • see listed options

Product image

VEX IQ Education Kit (No Control System) (2nd gen)

The VEX IQ Education Kit (2nd generation) (No Control System) contains all the same parts as the VEX IQ Education Kit, minus the electronics. Structural and Motion parts only.

PART NUMBER	DESCRIPTION / VARIANT	EUR
228-8657	IQ Education Kit (2nd generation) (No Control System)	**€162.99**

Product image

IQ System Bundle (2nd gen)

Core electronics for a second-generation IQ robot, including Robot Brain, controller, battery, motors and sensors.

PART NUMBER	DESCRIPTION / VARIANT	EUR
228-8658	IQ System Bundle (2nd generation)	**€367.49**

Family image • see listed options

VEX IQ Competition Kit (2nd gen)

The IQ Competition Kit makes starting a new VEX IQ Robotics Competition team easy. This kit contains all the parts from the VEX IQ Education Kit and adds another two bins of parts and extra motors to allow teams to build a competitive robot.

PART NUMBER	DESCRIPTION / VARIANT	EUR
228-7980	IQ Competition Kit (2nd Generation)	**€669.49**

VEX IQ Education to Competition Upgrade Kit

This kit contains all the parts needed to upgrade a VEX IQ Education Kit (2nd generation) to a VEX IQ Competition Kit (2nd generation).

Product image

PART NUMBER	DESCRIPTION / VARIANT	EUR
228-7597	IQ Education to Competition Upgrade Kit	**€209.99**

Charging Accessories

Spare USB Cables (A-C) and Charging Hubs for VEX 123, GO, IQ (2nd Gen) and EXP Batteries.

Family image • see listed options

PART NUMBER	DESCRIPTION / VARIANT	EUR
228-7889	USB Cable (A-C, 300mm) (4-Pack)	**€10.99**
228-8226	USB Charging Hub (4-port, 48W, Global)	**€33.99**
228-8808	USB Charging Bundle (4-Port with USB A-C Cables)	**€44.49**

Controller Battery Li-Ion 800 mAh

Replacement rechargeable battery for the VEX IQ and EXP Controller

Product image

PART NUMBER	DESCRIPTION / VARIANT	EUR
228-2779	Controller Battery Li-Ion 800mAh	**€12.99**

IQ Bumper Switch

Contact sensor that detects when a bumper is pressed or released.

Product image

PART NUMBER	DESCRIPTION / VARIANT	EUR
228-2677	Bumper Switch	**€6.49**

IQ Controller (2nd gen)

This controller packages analog joysticks and buttons into a familiar video-game style design. A rechargeable battery ensures enough charge to get you through multiple class periods or a full day of competition.

Product image

PART NUMBER	DESCRIPTION / VARIANT	EUR
228-6470	IQ Controller (2nd Generation)	**€88.99**

IQ Distance Sensor (2nd gen)

The IQ Distance Sensor measures distance to an object, approximate object size and approach speed.

Product image

PART NUMBER	DESCRIPTION / VARIANT	EUR
228-7106	IQ Distance Sensor (2nd Generation)	**€33.49**

Product image

IQ Optical Sensor

The IQ Optical Sensor is a combination of ambient light, color and proximity sensor. Colour information is available as RGB, hue and saturation or grayscale. Colour detection works best when the object is closer than 100mm.

PART NUMBER	DESCRIPTION / VARIANT	EUR
228-7082	IQ Optical Sensor	**€33.49**

Product image

IQ Robot Battery (Li-Ion, 2000 mAh)

Rechargeable 2000mAh lithium-ion robot battery for the IQ system.

PART NUMBER	DESCRIPTION / VARIANT	EUR
228-7045	IQ Robot Battery (Li-Ion, 2000 mAh)	**€55.49**

Product image

IQ Robot Brain (2nd gen)

The IQ Robot Brain is the heart of every VEX IQ robot.

PART NUMBER	DESCRIPTION / VARIANT	EUR
228-6480	IQ Robot Brain (2nd Generation)	**€169.99**

IQ Smart Motor

The Smart Motor does more than just make your wheels spin or arm move. The built in processor, quadrature encoder and current monitor allow for advanced control and feedback through the Robot Brain.

PART NUMBER	DESCRIPTION / VARIANT	EUR
228-2560	Smart Motor	**€25.49**

Product image

IQ Tether Cable (1st generation)

The Tether Cable connects the Robot Brain (1st generation) to the Controller (1st generation)

PART NUMBER	DESCRIPTION / VARIANT	EUR
228-2786	Tether Cable	**€6.49**

Product image

IQ Touch LED

A touch-sensitive input with coloured light output for interactive IQ robot projects.

PART NUMBER	DESCRIPTION / VARIANT	EUR
228-3010	Touch LED	**€12.99**

Product image

USB Cable (A-Micro)

USB Type-A to Micro-USB cable for compatible VEX electronics.

Product image

PART NUMBER	DESCRIPTION / VARIANT	EUR
228-2785	USB Cable	**€6.49**

VEX IQ AI Vision Sensor

The IQ AI Vision Sensor is an exciting new addition to VEX IQ, providing powerful object detection capabilities.

Product image

PART NUMBER	DESCRIPTION / VARIANT	EUR
228-9136	IQ AI Vision Sensor	**€92.99**

VEX IQ Smart Cables

VEX IQ Smart Cables connect Smart Motors and Sensors to your Robot Brain.

1x Beam Base Pack

The 1x Beam Base Pack contains various beam lengths and is included in all VEX IQ Starter Kits and Super Kits.

PART NUMBER	DESCRIPTION / VARIANT	EUR
228-3503	1x Beam Base Pack (Base)	**€5.99**

Product image

1x Beam Foundation Add-On Pack

The 1x Beam Foundation Add-On Pack includes additional 1x beams, great for adding structural support to VEX IQ robots.

PART NUMBER	DESCRIPTION / VARIANT	EUR
228-3519	1x Beam Foundation Add-On Pack (Base)	**€4.99**

Family image • see listed options

1x Beam Long Pack

The 1x Beam Long Pack contains additional long length beams for use in building robot structure and linkages.

PART NUMBER	DESCRIPTION / VARIANT	EUR
228-4416	1x Beam Long Pack (Base)	**€9.99**
228-4702	1x Beam Long Pack (Black)	**€9.99**

Product image

1x Beam Odd Length Pack (Base)

An assortment of single-width, odd-length IQ beams for robot structures and linkages.

PART NUMBER	DESCRIPTION / VARIANT	EUR
228-4412	1x Beam Odd Length Pack (Base)	**€5.99**

Product image

1x2 Beam (20-pack)

Twenty short 1x2 IQ beams for compact structural connections.

PART NUMBER	DESCRIPTION / VARIANT	EUR
228-4414	1x2 Beam (20-pack) (Base)	**€5.99**

Product image

200mm Travel Omni-Directional Wheel (2-pack)

Omni-Directional wheels roll forward like normal wheels, but slide sideways with almost no friction (no skidding during turns). Use these wheels to make your robot turn smoothly or build a holonomic drivetrain.

PART NUMBER	DESCRIPTION / VARIANT	EUR
228-2536	200mm Travel Omni-Directional Wheel (2-pack)	**€12.99**

Family image • see listed options

24 & 48 Tooth Gear Pack

Includes 24 & 48 tooth spur gears to allow for additional gear ratio options not found in the VEX IQ Starter & Super Kits. One great application of this pack is the ability to create compact gearboxes by placing your motors side by side!

PART NUMBER	DESCRIPTION / VARIANT	EUR
228-4127	24 & 48 Tooth Gear Pack (Base)	**€6.99**
228-4697	24 & 48 Tooth Gear Pack (Black)	**€6.99**

Product image

25mm Ball (50-pack)

Assorted 25mm balls for classroom challenges, sorting activities and robot mechanisms.

PART NUMBER	DESCRIPTION / VARIANT	EUR
228-4421	25mm Ball (50-pack)	**€5.99**

Product image

2x Beam Base Pack

The 2x Beam Base Pack contains various length beams and is included in all VEX IQ Starter Kits and Super Kits.

PART NUMBER	DESCRIPTION / VARIANT	EUR
228-3509	2x Beam Base Pack (Base)	**€12.99**

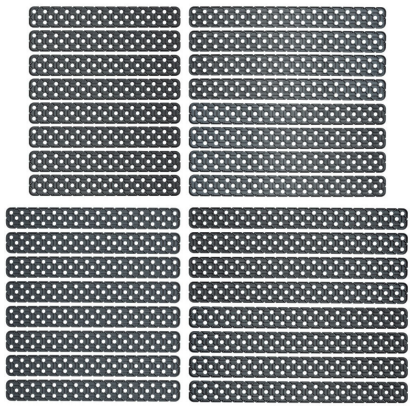

Family image • see listed options

2x Beam Foundation Add-On Pack

The 2x Beam Foundation Add-On Pack includes additional 2x beams, great for adding structural support to VEX IQ robots.

PART NUMBER	DESCRIPTION / VARIANT	EUR
228-3518	2x Beam Foundation Add-On Pack	**€6.99**
228-3768	2x Beam Foundation Add-On Pack (Orange)	**€6.99**

Family image • see listed options

2x Beam Long Pack

The 2x Beam Long Pack contains additional long length beams for use in building robot structure and linkages. Use these to make your robot reach higher or further!

PART NUMBER	DESCRIPTION / VARIANT	EUR
228-5653	2x Beam Long Pack (Base)	**€12.99**
228-5711	2x Beam Long Pack (Black)	**€12.99**

Family image • see listed options

2x Beam Odd Length Pack

The 2x Beam Odd Length Pack contains additional "odd number" length beams. One great application for this pack is to make your robot more structurally sound by creating right triangles!

PART NUMBER	DESCRIPTION / VARIANT	EUR
228-4413	2x Beam Odd Length Pack (Base)	**€9.99**
228-4699	2x Beam Odd Length Pack (Black)	**€9.99**

Family image • see listed options

4x Plate Base Pack

The 4x Plate Base Pack is included in all VEX IQ Starter Kits and Super Kits.

PART NUMBER	DESCRIPTION / VARIANT	EUR
228-3504	4x Plate Base Pack (Base)	**€5.99**
228-3774	4x Plate Base Pack (Black)	**€5.99**

Family image • see listed options

4x Plate Foundation Add-On Pack

The 4x Plate Foundation Add-On Pack includes additional 4x plates, great for adding structural support to VEX IQ robots.

PART NUMBER	DESCRIPTION / VARIANT	EUR
228-3515	4x Plate Foundation Add-On Pack (Base)	**€6.99**

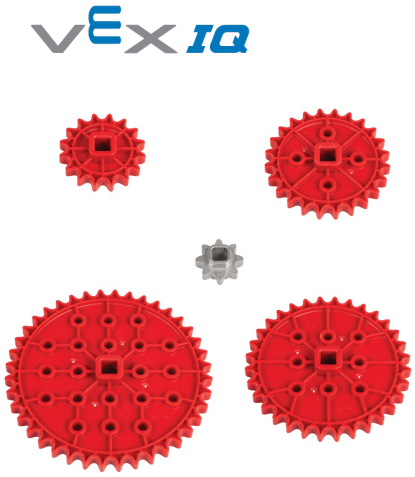

Product image

5x Pitch Weighted Disks (3-Pack)

Spare Disks found in the GO kit. Can be used with the GO Electromagnet to pick up and drop Disks.

PART NUMBER	DESCRIPTION / VARIANT	EUR
228-7384	5x Pitch Weighted Disc (3-Pack)	**€7.99**

Family image • see listed options

6P Sprockets

6P Sprockets were designed to be smaller in diameter than the pre-existing High Strength Sprockets, allowing for the construction of smaller, more compact mechanisms.

PART NUMBER	DESCRIPTION / VARIANT	EUR
228-4983	Chain Add-on Pack	**€22.49**

Product image

Air Tank 70mL

A 70mL air reservoir for the VEX IQ pneumatic system.

PART NUMBER	DESCRIPTION / VARIANT	EUR
228-7721	Air Tank 70mL	**€9.99**

Product image

Basic Motion Accessory Pack

The Basic Motion Accessory Pack is included in all VEX IQ Starter Kits and Super Kits.

PART NUMBER	DESCRIPTION / VARIANT	EUR
228-3511	Basic Motion Accessory Pack (Base)	**€4.99**

Product image

Capped Connector Pin Pack

Capped pins for connecting VEX IQ structural parts.

PART NUMBER	DESCRIPTION / VARIANT	EUR
228-5656	Capped Connector Pin Pack (Base)	**€12.99**

Family image • see listed options

Capped Shafts

Use capped shafts to retain motion objects without the need for a shaft collar!

PART NUMBER	DESCRIPTION / VARIANT	EUR
228-7457	Short Capped Shaft Add-on Pack	**€12.99**
228-7458	Long Capped Shaft Add-on Pack	**€12.99**

Family image • see listed options

Chain & Sprocket Kit

Use chains and sprockets for additional reductions and to drive mechanisms.

PART NUMBER	DESCRIPTION / VARIANT	EUR
228-2534	Chain & Sprocket Kit (Base)	**€30.99**

Family image • see listed options

Connector Pin Pack

The Connector Pin Pack is included in all VEX IQ Starter Kits and Super Kits.

PART NUMBER	DESCRIPTION / VARIANT	EUR
228-3058	Connector Pin Pack (Base)	**€12.99**
228-3775	Connector Pin Pack (Black)	**€12.99**
228-3813	Connector Pin Pack (Yellow)	**€12.99**
228-3831	Connector Pin Pack (Green)	**€12.99**
228-3849	Connector Pin Pack (Pink)	**€12.99**

Corner Beam Pack

The Corner Beam Pack contains an assortment of Corner Beams, useful for giving VEX IQ Structure more rigidity.

PART NUMBER	DESCRIPTION / VARIANT	EUR
228-7883	Corner Beam Pack	**€10.99**

Family image • see listed options

Corner Connector Advanced Add-On Pack (1/2)

The Corner Connector Advanced Add-On Pack contains a large assortment of corner connectors, useful for creating rigid connections in many VEX IQ applications.

PART NUMBER	DESCRIPTION / VARIANT	EUR
228-5657	Corner Connector Advanced Add-On Pack (Base)	**€12.99**
228-5702	Corner Connector Advanced Add-On Pack (Blue)	**€12.99**
228-5706	Corner Connector Advanced Add-On Pack (Red)	**€12.99**
228-5710	Corner Connector Advanced Add-On Pack (Orange)	**€12.99**
228-5717	Corner Connector Advanced Add-On Pack (Purple)	**€12.99**
228-5721	Corner Connector Advanced Add-On Pack (Yellow)	**€12.99**

Cube Kit

A set of 3-inch cubes that can be used as part of VEX STEM Labs, to build a color-sorter, or disassembled and used on a robot.

PART NUMBER	DESCRIPTION / VARIANT	EUR
228-4967	Cube Kit	**€38.99**

Product image

Cube-Base Kit

Cube-Base components used in the 2014-2015 VEX IQ Challenge game, Highrise.

PART NUMBER	DESCRIPTION / VARIANT	EUR
228-3452	Cube-Base Kit	**€9.49**

Family image • see listed options

Differential & Bevel Gear Pack

This kit has motion components for creation of advanced mechanisms. Transfer motion 90-degrees "around corners" using bevel gears, or add a differential to your drivetrain. Includes structural elements to enable your build!

PART NUMBER	DESCRIPTION / VARIANT	EUR
228-4418	Differential & Bevel Gear Pack (Base)	**€12.99**
228-4704	Differential & Bevel Gear Pack (Black)	**€12.99**

Drive Shafts

Because that wheel isn't going to drive itself. Give your motors something to turn with VEX Drive Shafts.

Family image • see listed options

PART NUMBER	DESCRIPTION / VARIANT	EUR
228-3057	Shaft Add-On Kit	**€12.99**
228-4420	Long Shaft Add-On Pack	**€12.99**

Flywheel Weight

Use the Flywheel Weight to prevent your launcher wheels from losing speed after firing or to add counterweights to keep your robot from tipping over.

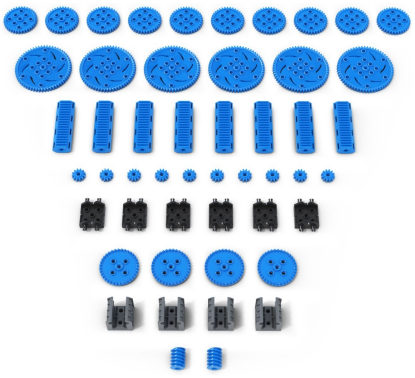

Product image

PART NUMBER	DESCRIPTION / VARIANT	EUR
228-7459	Flywheel Weight (4-pack)	**€16.99**

Gear Add-On Kit

This kit contains rack gears, worm gears, linear slide brackets and VEX IQ gears in assorted tooth counts and sizes!

Product image

PART NUMBER	DESCRIPTION / VARIANT	EUR
228-2532	Gear Add-On Kit	**€18.99**

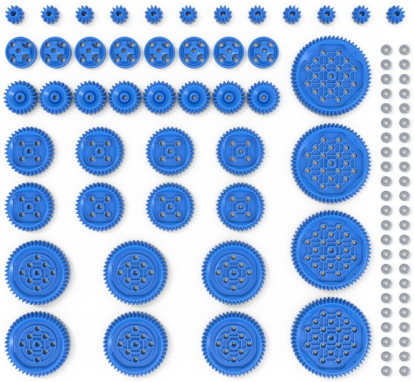

Family image • see listed options

Gear Base Pack

The Gear Base Pack features and assortment of tooth counts and sizes and is included in all VEX IQ Starter Kits and Super Kits.

PART NUMBER	DESCRIPTION / VARIANT	EUR
228-3502	Gear Base Pack (Base)	**€6.99**

Product image

Hybrid Gear Pack

This kit contains numerous Gears that can be used in advanced motion mechanisms. These gears are a combination of Spur Gears and Bevel Gears.

PART NUMBER	DESCRIPTION / VARIANT	EUR
228-7886	Hybrid Gear Pack	**€10.99**

Product image

IQ Pneumatics Kit

This kit contains everything needed to get a classroom or VEX IQ Robotics Competition team up and running with Pneumatics.

PART NUMBER	DESCRIPTION / VARIANT	EUR
228-8795	IQ Pneumatics Kit	**€120.99**

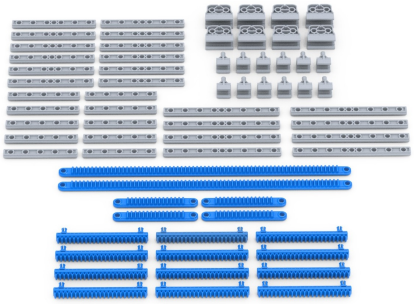

Family image • see listed options

Large Plate Add-On Pack

Larger structural plates are useful for robot bases, or construction of large scale projects.

PART NUMBER	DESCRIPTION / VARIANT	EUR
228-4415	Large Plate Add-On Pack (Base)	**€9.99**
228-4675	Large Plate Add-On Pack (Blue)	**€9.99**
228-4701	Large Plate Add-On Pack (Black)	**€9.99**

Rubber Bands

VEX Rubber Bands have dozens of uses on a robot.

PART NUMBER	DESCRIPTION / VARIANT	EUR
228-6633	Silicone Rubber Band #32 (10-pack)	**€6.49**
228-6634	Silicone Rubber Band #64 (10-pack)	**€8.99**

Product image

Rubber Shaft Collar (30-Pack)

The Rubber Shaft Collars easily slide onto VEX 0.125" shafts. Friction between the rubber collar and steel shaft keeps wheels and gears from sliding in place during assembly and operation.

PART NUMBER	DESCRIPTION / VARIANT	EUR
228-3510	Rubber Shaft Collar (30-Pack)	**€7.99**

Rubber Tread & Balloon Tire Pack

This kit contains a variety of tires, hubs and treads. Useful for drivetrains, intakes, and other robot mechanisms!

Product image

PART NUMBER	DESCRIPTION / VARIANT	EUR
228-7885	Rubber Tread & Balloon Tire Pack	**€22.49**

Shock Absorber Pack

Use VEX IQ Shock Absorbers to load your mechanisms with spring energy. Each pack comes with Absorbers in two different strengths to adapt to your mechanism.

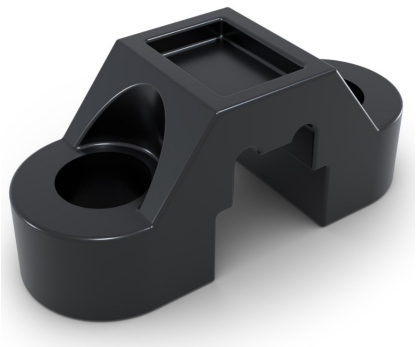

Product image

PART NUMBER	DESCRIPTION / VARIANT	EUR
228-5654	Shock Absorber Pack	**€12.99**

Smart Cable Anchor (20-Pack)

Use a Smart Cable Anchor to hold a VEX IQ Smart Cable in place. This provides an easier solution to wire management, and also prevents wires from potentially being damaged by your robot!

Product image

PART NUMBER	DESCRIPTION / VARIANT	EUR
228-6519	Smart Cable Anchor (20-Pack)	**€6.49**

Product image

Smart Motor Mount Add-On Pack

Plastic Caps that slide onto the back of the VEX IQ Smart Motor. Use the Single Motor Support Cap's second set of mounting holes to attach your motors in new ways, or use the Dual Motor Support Mount to attach two Smart Motors back-to-back.

PART NUMBER	DESCRIPTION / VARIANT	EUR
228-4034	Smart Motor Mount Add-On Pack	**€6.49**

Specialty Beam Base Pack

The Specialty Beam Base Pack contains uniquely shaped and angled beams. This pack is included in all VEX IQ Starter Kits and Super Kits.

PART NUMBER	DESCRIPTION / VARIANT	EUR
228-3512	Specialty Beam Base Pack (Base)	**€5.99**

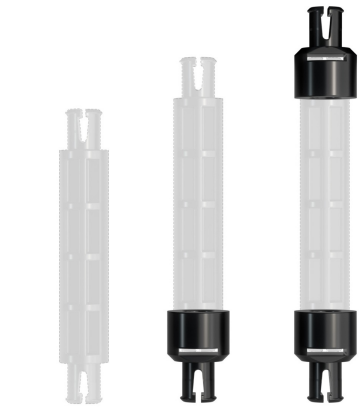

Family image • see listed options

Standoff Base Pack

The Standoff Base Pack is included in all VEX IQ Starter Kits and Super Kits.

PART NUMBER	DESCRIPTION / VARIANT	EUR
228-3514	Standoff Base Pack (Base)	**€6.99**

Product image

Standoff Extender

Use a Standoff Extender in situations where you need a standoff to be just a bit longer. Comes in a pack of 100.

PART NUMBER	DESCRIPTION / VARIANT	EUR
228-7461	Standoff Extender (100-pack)	**€9.99**

Product image

Standoff Foundation Add-On Pack

The Standoff Foundation Add-On Pack contains additional standoffs to help create trusses and other stiff structures.

PART NUMBER	DESCRIPTION / VARIANT	EUR
228-3516	Standoff Foundation Add-On Pack (Base)	**€4.99**

PART NUMBER	DESCRIPTION / VARIANT	EUR
276-2521	Battery Charger Power Cord - Europe (Type C)	**€3.49**
276-2522	Battery Charger Power Cord - UK (Type G)	**€5.99**

LED Indicator Pack

Product image

Compatible with the VEX ARM® Cortex®-based Microcontroller Digital Outputs. Use these with programming software as feedback indicators, to debug code, verify microcontroller mode, or to create cool light patterns!

PART NUMBER	DESCRIPTION / VARIANT	EUR
276-2176	LED Indicator Pack	**€12.49**

Light Sensor

The Light Sensor uses a photocell that allows your robot to detect and react to light. With the light sensor, you can program a whole new range of capabilities to your robot. A Programming Kit is needed to change the program in the VEX Controller.

Product image

PART NUMBER	DESCRIPTION / VARIANT	EUR
276-2158	Light Sensor	**€24.49**

Limit Switch (2-pack)

Switches send a signal to the microcontroller when they are triggered. These fine switches are great for detecting subtle events, such as when a robot arm has reached the top or bottom of its motion.

Product image

PART NUMBER	DESCRIPTION / VARIANT	EUR
276-2174	Limit Switch (2-pack)	**€15.99**

Line Tracker (3-pack)

Reads the difference between a black line and a white surface; can be used with programming software to follow a marked path on the ground. A Programming Kit is needed to change the program in the VEX Controller.

Product image

PART NUMBER	DESCRIPTION / VARIANT	EUR
276-2154	Line Tracker (3-pack)	**€48.99**

Optical Sensor

The V5 Optical Sensor is a combination of ambient light, color, and proximity sensor.

Product image

PART NUMBER	DESCRIPTION / VARIANT	EUR
276-7043	V5 Optical Sensor	**€51.99**

Potentiometer V2 (2-Pack)

The Potentiometer can determine both position and direction of rotation.

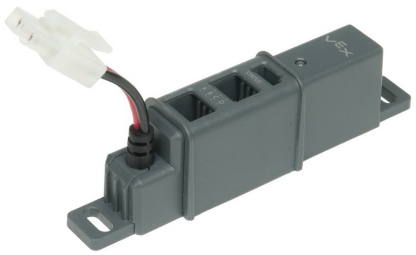

Product image

PART NUMBER	DESCRIPTION / VARIANT	EUR
276-7417	Potentiometer V2 (2-pack)	**€15.99**

Power Expander

Use the VEX Power Expander to add a secondary power source for four of the PWM outputs on the VEX ARM® Cortex®-based Microcontroller. Balance a robot's motor load across two batteries to extend robot run time and increase performance.

Product image

PART NUMBER	DESCRIPTION / VARIANT	EUR
276-2271	Power Expander	**€60.99**

Programming Hardware Kit

The Programming Hardware Kit provides a connection between your PC and a VEX microcontroller.

Product image

PART NUMBER	DESCRIPTION / VARIANT	EUR
276-2186	Programming Hardware Kit	**€60.99**

Rotation Sensor

The V5 Rotation Sensor measures shaft rotational position, total rotations and rotation speed.

Product image

PART NUMBER	DESCRIPTION / VARIANT	EUR
276-6050	V5 Rotation Sensor	**€44.49**

Smart Cables and Tools

V5 Smart Cables allow robot components such as motors and sensors to communicate with the Robot Brain.

276-5774	V5 Smart Cable Stock (8m)	**€7.99**
276-5775	V5 Smart Cable Connectors (50-Pack)	**€3.99**

Product image

Smart Motor (5.5W)

The Smart Motor (5.5W) is capable of producing half the power of the original V5 Smart Motor (11W). Perfect for low-RPM or lightweight applications such as indexers, arms, or some intakes.

PART NUMBER	DESCRIPTION / VARIANT	EUR
276-4842	V5 Smart Motor (5.5 W)	**€33.49**

Product image

V5 Battery Clip (4-Pack)

Plastic mounting clip for attaching a V5 Robot Battery Li-Ion 1100mAh onto your robot. Mount two clips to the robot and simply snap your V5 Battery in and out.

PART NUMBER	DESCRIPTION / VARIANT	EUR
276-6020	V5 Battery Clip (4-Pack)	**€5.99**

Product image

V5 Competition Field Controller Cables (4-Pack)

8m long V5 Smart Cables to run from the Smart Field Controller to V5 controllers.

PART NUMBER	DESCRIPTION / VARIANT	EUR
276-7740	V5 Competition Field Controller Cables	**€27.99**

V5 Competition Field Controller Power Cable

This adapter allows a Smart field controller or a V5 Robot Brain to run directly off a V5 Robot Battery Charger.

Product image

PART NUMBER	DESCRIPTION / VARIANT	EUR
276-7581	V5 Competition Field Controller Power Cable	**€4.49**

V5 Controller

Handheld V5 robot controller with joysticks, buttons and a display for driver control and feedback.

Product image

PART NUMBER	DESCRIPTION / VARIANT	EUR
276-4820	V5 Controller	**€131.49**

V5 GPS Sensor

Give your robot real-time positional awareness with the V5 GPS (Game Positioning System™) Sensor.
